Project Information			
Type of award applied for		<input type="text"/>	
Organisation where the grant should be held (i.e. the research organization to whom the grant will be paid, and who will be responsible for administering the grant)			
Name of Organisation		<input type="text"/>	
Title of Project		<input type="text"/>	
Start date and duration (projects should be planned to commence within 2018)			
Start date	<input type="text"/>	Duration	<input type="text"/>
Total Funding requested (in GBP)	<input type="text"/>	<input type="text"/>	<input type="text"/>
Applicants			
Principal Investigator			
Name, position, organisation			
Co-investigator(s)			
Name, position, organisation			
(Explain how each of the investigators named in the proposal will work together and outline other major collaborations important for the research)			
(Describe how the scientific or clinical environment(s) in which the research will be done will promote delivery of the proposed research)			

**Aims & objectives of project** (100 words - What is the project aiming to achieve? The objectives of the proposed project should be listed in order of priority and should be those that the investigators would wish FEAT to use as the basis for evaluation of work upon completion of any grant awarded)

**Scientific hypothesis and rationale** (200 words - what other work led you to conceive this project or travel to this particular centre (if travel award))

**Summary** *(A layman's summary of what the project involves that explains the context of the aims and objectives of the research and any potential applications and benefits)*

**Technical summary/case for support** *(in depth scientific summary and methodology aimed at any scientific reviewers of the application who have knowledge of the area of science involved. It should be a self-contained description of the proposed work with relevant background, and should not depend on additional information)*

**Impact of project** *(please describe in 1000 words or less why you believe your project is of key importance in the journey to Stop Sepsis Now. What are the potential impacts likely to be, and what is their importance? What are the realistic timescales for the benefits to be realised, and how will this research contribute?)*

**Timescale of project** *(preference will be given to discrete pieces of work that can be presented at a future FEAT World Sepsis Day event within the next 24 months, but we will consider funding projects that form part of longer-term research goals) Either use freetext box below or attach full timeline with project start date and milestones.*

**Summary of resources required for the project** *Full summary/breakdown of costs should be provided, with justification (i.e. if staff cost - why is a cost needed plus by the time is appropriate. Also, is the member of staff nominated suitable for the task). Identify if the FEATURES Award is to cover a portion, or all the costs.*

--	--

**Ethics Statement** *Describe briefly the ethical issues arising from any involvement of people, human samples or personal data in the research proposal. Please give details of how any specific risks to human participants will be controlled. Describe the ethical review and research governance arrangements that would apply to the work done.*

Does your project involve human subjects?	▼
If yes, do you have existing LREC approval?	▼
If yes, give reference details	▼
If no, does your project fall under Audit and Care Improvement definitions?	▼
If no, please seek advice from your local Research & Audit Officer before applying	

**If Animal research is involved** *(Further information may be required in this instance)*

Project licence obtained	▼
Project licence number	
Personal licence number	

**Scientific references, if appropriate** *(maximum of 5 key papers in your field)*

Do you expect to be in continuous employment at the named research institution for the duration of this project?	▼
Are you in receipt of other research funding awards that will be used on this project?	▼
Awarding body	
Grant reference number	

<b>References</b>	
<b>Details of Two Referees</b> <i>You may include one person from whom we may request a scientific review of your application (this person should not be in a position where they or their institution could benefit from your receipt of a FEATURES Award)</i>

**CV'S** (*upload attachments*)

Please provide a CV and list of publications (as separate attachments) for each of the following:

- \* Principal Investigator
- \* Co-investigators
- \* Named individual research staff

The CV should cover:

- \* Employment history:
- \* A description of your current post and the source(s) of funding for this post (including dates)
- \* List and description of previous posts (including dates)
- \* Educational qualifications (including dates)

Please also state whether you are:

- \* Clinically qualified
- \* Clinically active

The CV should explain any breaks in employment or publication record, for example as a result of a career break or parental leave.

**Publications**

The publications list should highlight relevant and recent publications.
